

SECUR-SERV

## Nationwide Service

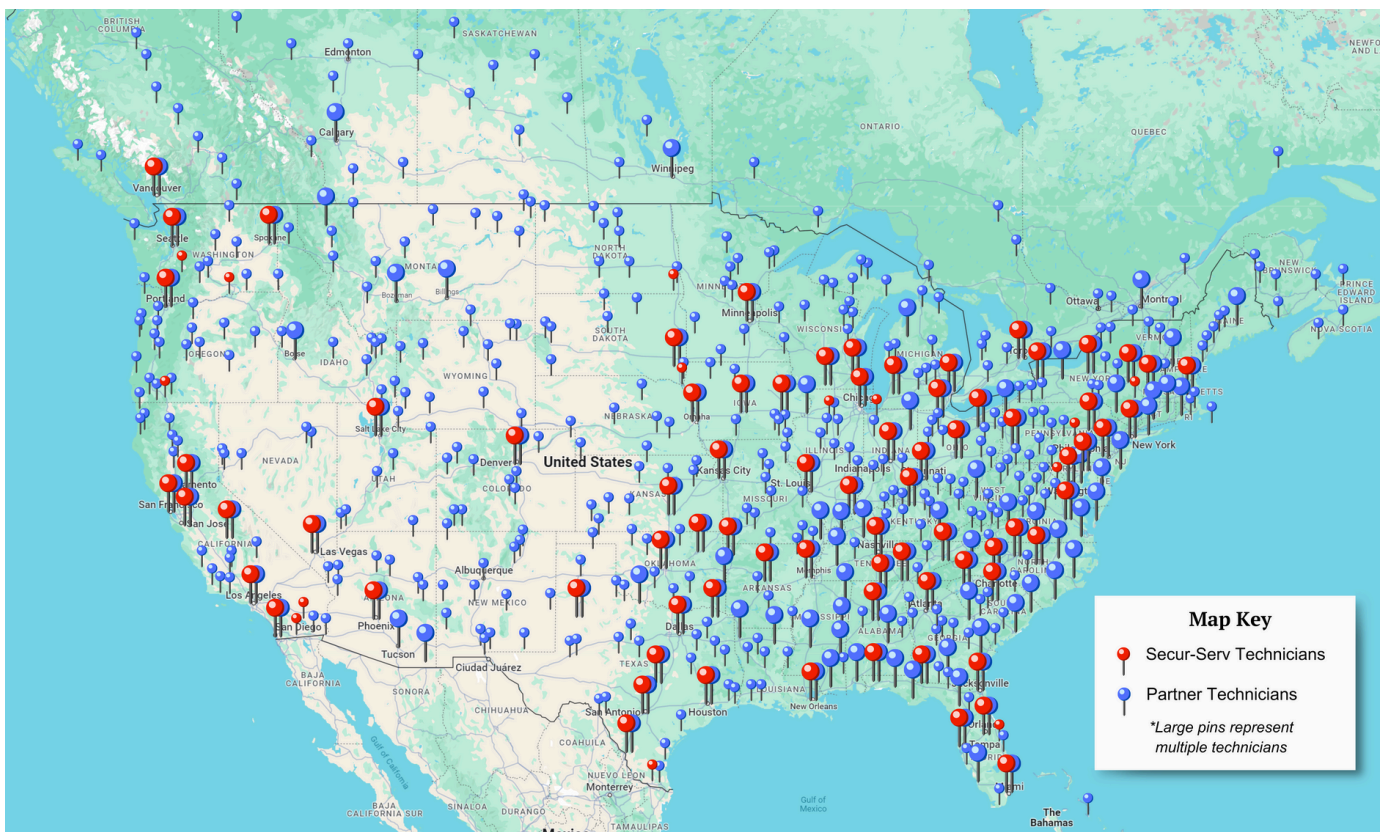

*Prompt onsite service and support*

What could you achieve with a service provider who can be onsite, promptly, wherever you are? Secur-Serv's™ Field Service Technicians (FSTs) are strategically positioned across the United States, ensuring your company's needs are resolved quickly, minimizing costly downtime.

## Nationwide Coverage

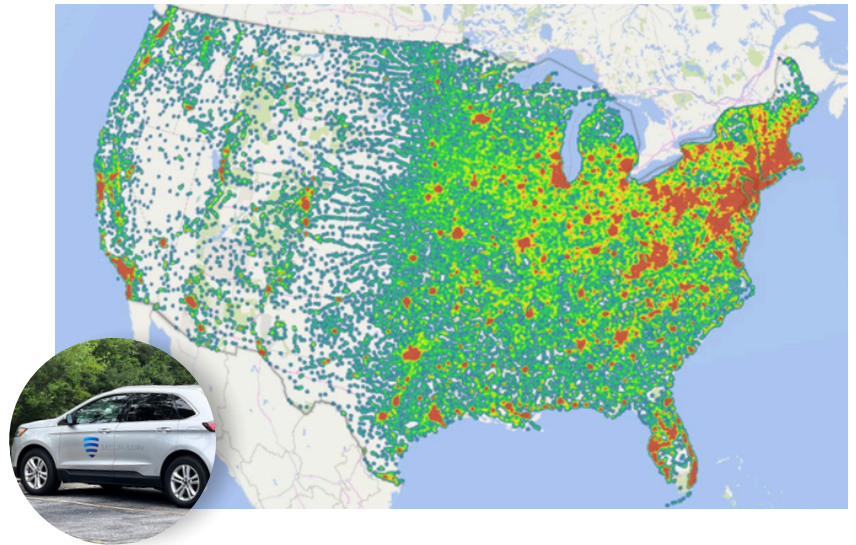

Our FSTs currently operate in 44 states and can easily reach 95% of the population. In other locations, we collaborate with trusted partners for onsite services. This map represents our total combined reach in all 50 United States. Our range and depth enable you to scope and deliver projects across multiple locations concurrently — without the need to hire additional staff.

**2,000+ expertly trained technicians, providing onsite support**

# Customer Locations Map

Outsourcing your field service needs saves time and resources. Our team of 190+ W2 Field Service Technicians (FSTs) spans nearly every U.S. metropolitan area and select Canadian metros, providing swift, reliable onsite service. Each technician, equipped with a tailored inventory of parts, covers an area with a radius of approximately 100 miles. This map highlights the extensive reach of our service coverage, showcasing our commitment to comprehensive, localized support for your business.

“Secur-Serv is always kind of behind-the-scenes, managing our servers, pushing updates when we need them and paying attention to different things. When we call and say we’ve got a problem, it’s usually fixed within a day, or the next day. If you need a part, Secur-Serv will fly it in, and still have things back up and running phenomenally quick.
