Ransomware:
The Known and Unknown
Test Your Ransomware Knowledge

SECUR-SERV

Are you up to date on the latest ransomware tactics? Here is a checklist to guide internal cybersecurity conversations or ask your managed security services provider. If you are still seeking answers, Secur-Serv can help with comprehensive, proactive, managed security services.

What is ransomware?	
	☐ Is ransomware a virus? Trojan? Adware? A hacker? All of the above?
	☐ What does ransomware do?

How do I get ransomware?	
	☐ How will ransomware impact my environment?
	☐ Can I get ransomware from email?
	☐ Can I get ransomware from a website?
	☐ Can I get ransomware from removable devices?
	☐ Can I get ransomware from social media?
	☐ Can a hacker infect me with ransomware through other means?

What are the goals of ransomware?	
	☐ Why would I be a target of ransomware?
	☐ Will a hacker steal my data using ransomware?
	☐ Will a hacker sell my data using ransomware?

How do I know if I've been infected?	☐ What does ransomware look like?
	☐ Is there only one type of ransomware I should worry about?
	☐ How will I know if I have ransomware?
	☐ What will ransomware target in my environment?
	☐ Does ransomware just happen?
	☐ How long from when I've been infected with ransomware will I start to see it in my environment?
How do I protect against ransomware? How do I respond if my organization gets ransomware?	☐ What security items do I need to buy to protect against ransomware?
	☐ Should I pay the ransom fee to get my data back?
	☐ Can I reverse the effects of ransomware on my own?
	☐ Who can I call in the event that I believe I have ransomware?
	☐ How long will ransomware keep my business down?
