

SECUR-SERV

Security Operations Center (SOC)

*Modern-day Cyberthreats Require
Modern-day Solutions*

Comprehensive, expert, 24/7 cybersecurity protection. A security operations center (SOC) is integral in providing a required layer for top-tier cyber security protection. Advanced technologies proactively detect and escalate potential threats across your organization. But it takes trained professionals to analyze security alerts and remediate threats in a way no technology can.

Do You Need a SOC?

Any business leveraging the internet or cloud services is vulnerable to cybersecurity threats. Effectively protecting your business from today's frequent, costly threats requires a dedicated resource focused solely on safeguarding your sensitive data and critical business systems.

- ✓ **Constant protection**
- ✓ **Threat prevention**
- ✓ **Cost savings**
- ✓ **Rapid response**
- ✓ **Improved business reputation**

What is SOC as a Service?

SOC as a Service, or SOCaaS, allows businesses of all sizes to experience a level of cybersecurity protection they never could before, thanks to its subscription-based model.

- ✓ **Affordable**
Complete cybersecurity protection for one monthly fee
- ✓ **Scalable**
Flexible resources flex with changing business needs

of all cyber breaches impact businesses with fewer than 1,000 employees

In the Numbers

Many companies struggle to monitor security threats 24/7 effectively; making the case to work with a managed security service provider should be easy.

- ▶ Average SOC requires eight employees totaling \$600k in salary costs annually
- ▶ Training costs upwards of \$16k annually for one analyst
- ▶ Compliance costs including reporting and audit expenses
- ▶ Time and expenses to hire and retain experienced personnel

Continual Protection

All companies need more than system, network, and end-user support. Fortunately, Secur-Serv also has the depth, skills, experience, and relationships to handle it all:

- ▶ Intelligent threat hunting, detection and response 24/7
- ▶ Expert threat analysis and remediation
- ▶ Industry compliance and audit reporting standards
- ▶ Assist with controls that could reduce cybersecurity insurance rates

Every Minute Counts

The Benefit of an MSSP

Some companies see threat containment speeds increase by as much as 50% after switching to a managed security service provider
