

SECUR-SERV

Technology Solutions for the Building Materials Industry

Trusted Partner since 1999

Building a Better Future Together

DMSi and Secur-Serv empower companies to maintain seamless operations, ensuring uninterrupted business momentum. Our managed technology services allow you to optimize processes, secure your data, and serve your customers without any hindrance.

IT & Cloud Solutions

IT engineers will help architect and support a modern environment fueled by a future-focused technology and security-focused strategy. Keeping your software up and running on a modern, secure infrastructure is our number one goal.

From network and server management to cloud strategy, storage, backup and recovery, our engineers have you covered.

Exceptional Outcomes

Reduce downtime and simplify vendor management with server management, and repair on devices, printers and other equipment. With device management offloaded to a single provider, you can focus on maximizing the efficiency of your daily inventory and order management solutions.

Cybersecurity Services

You'll get a custom solution — starting with a free security assessment. Our team dives deep to provide tactical security solutions, identifying risks and remediating vulnerabilities.

Working 24x7 to identify vulnerabilities and stop attacks before they hijack your systems. Partnering with you and your cyber insurance company to keep your data safe.

74% of building material related businesses lack a cybersecurity contingency plan

Streamlined Support

Our help desk, along with dedicated account management and skilled engineering staff, ensures support for your organization. With over 3,000 technicians nationwide, we surpass expectations by delivering unexpected value and exceptional service, setting us apart from other providers.

“ We know when we call you, you will be there to help us. As long as that’s the case, there are no ifs, ands or buts about it; Secur-Serv will always be our partner. ”
