

Risk Assessments

Where Every Good Cybersecurity Defense Begins

Critical Risks Exposing SMBs to Cyberattacks

Cybersecurity threats come in all shapes and sizes and pose serious risks to businesses, big and small. Don't wait until it's too late to identify your greatest areas of risk.

69% of SMBs haven't identified cybersecurity **threats**

66% of SMBs haven't identified cybersecurity **vulnerabilities**

48% of SMBS haven't analyzed cybersecurity **attack targets and methods**

What is a risk assessment?

1

Identify

You can't fix what you can't see. A risk assessment can expose hidden security gaps.

2

Prioritize

Critical gaps affecting your business operations can be addressed immediately.

3

Remediate

A risk assessment can drive strategic, long-term cybersecurity defense measures.

What you can expect

A risk assessment isn't a one-and-done endeavor. An assessment from Secur-Serv® can help strengthen your overall cybersecurity defense for years to come.

- Scoring on ten security health data and risk factors
- Vulnerability scan for known weak points
- User-friendly, simplified executive summary
- Risk analysis score with meaningful findings
- Dark web scanning for credentials for sale

60%

of SMBs go out of business within six months of a cyberattack.

-National Cyber Security Alliance
