# CyberVue Cybersecurity Package
Simplifying cybersecurity for small businesses

Secur-Serv's CyberVue security package is a comprehensive one-time cybersecurity evaluation. Uncover vulnerabilities and assess cybersecurity risks in your systems, data, and Microsoft 365 environment to fortify your digital fortress for lasting protection.

61% of SMBs were the target of a Cyberattack in 2021.

Secur-Serv® CyberVue Package

Included in the CyberVue security package:

▶ **Posture Score**: Evaluates if basic protection measures have been taken and basic attacks are blocked.

▶ **Data Leak Score:** Shows sensitive data exposure and access to unauthorized individuals.

▶ **Ransomware Score**: Risk of falling victim to malicious software threatening to publish or block access to data unless a ransom is paid.

▶ **Fraud Score**: Inappropriate access to financial or sensitive business information.

▶ **Cybersecurity Readiness Level**: Measures what must be secured to safeguard your company from attacks and identifies gaps.

▶ **Microsoft Secure Score**: Scan exposes hidden infrastructure vulnerabilities within your Microsoft business services.

▶ **External Scan:** Findings detect infrastructure vulnerabilities, including specific asset and vulnerability details.
