

SECUR-SERV

Managed Services for Credit Unions

Ensuring Security, Compliance, and Efficiency

A reliable managed service provider is vital for credit unions to protect data, maintain member trust, and comply with regulations. Secur-Serv® offers tailored IT, device support, and cybersecurity services to meet the unique challenges of financial institutions.

IT Management

affianceSUITE™ FI is an extensive IT support solution that empowers credit unions with little or no IT or cybersecurity resources. It relieves the day-to-day burden of network administration, performance optimization, and meeting regulatory compliance.

The affianceSUITE FI service package supplements your existing IT structure with services specifically for credit unions.

- ✓ 24x7 IT Help Desk Support
- ✓ Strategic IT Consulting
- ✓ Infrastructure Solutions
- ✓ Banking Application Support
- ✓ Secure Cloud Storage and Management

Compliance with Financial Regulations

With Secur-Serv's SOC 2 certification, we are equipped to help your credit union stay compliant with key regulatory mandates at both state and federal levels.

Managed Security

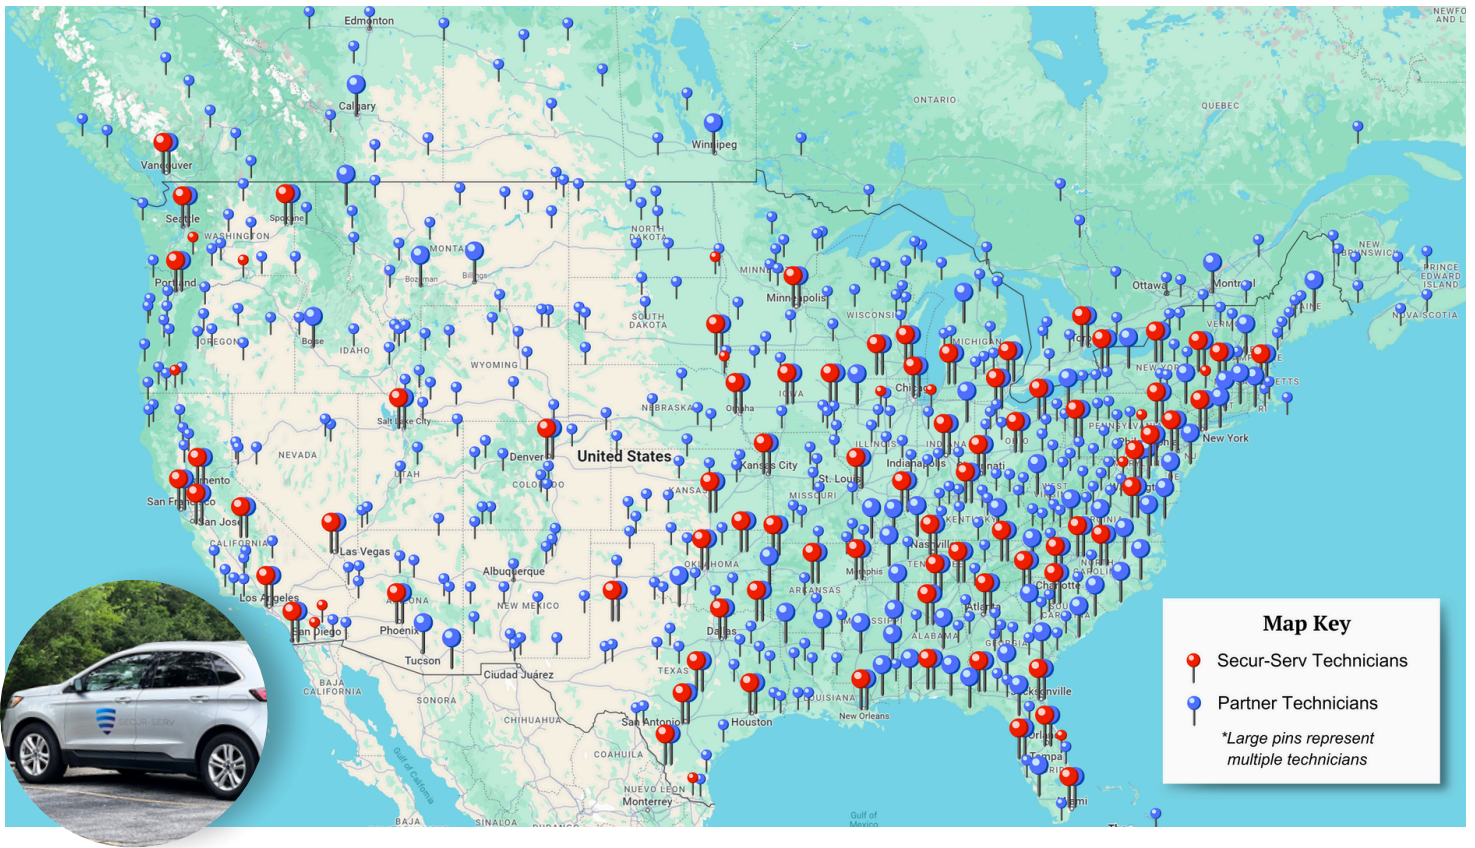

Cybersecurity is critical for credit unions. Your threat landscape expands as your company's data footprint expands across multiple environments, partners, and endpoints, proving irresistible to hackers, and malware, ransomware, and phishing attacks.

Secur-Serv's managed cybersecurity services provide businesses with a team of experts who can continuously monitor their systems, identify potential vulnerabilities, and promptly respond and remediate security incidents.

- ✓ DNS Filtering
- ✓ Managed Risk
- ✓ Endpoint Security
- ✓ Advanced Spam Filtering
- ✓ Security Awareness Training
- ✓ Managed Detection & Response (MDR)
- ✓ 24x7 Security Operations Center (SOC)

of credit unions have been victims of cyberattacks in the last year.

Device Services

Our nationwide team of over 2,000 Field Service Technicians (FSTs) provides comprehensive support for your technology needs. Operating in 44 states and covering 95% of the population, we handle onsite repairs, hardware logistics, and preventive maintenance to keep your devices running smoothly so you can focus on serving your members.

For areas beyond our direct reach, we partner with trusted associates to ensure seamless service across all 50 states. This broad network allows us to efficiently manage and deliver projects across multiple locations without needing extra staff.

Cost Effective

Onsite repair can be more cost-effective than driving to multiple locations or hiring multiple companies across local markets. Plus, preventative maintenance prolongs the life of your devices.

Reduced Downtime

Down equipment causes disruptions to your business. Onsite technicians can diagnose and fix the issue faster than transporting it for repair.

Talent & Expertise

Your technician provides customized service tailored to your equipment. With parts already on their truck, you can ensure your equipment is repaired correctly the first time.
